

June 30, 2011 @ 11:45am Martin's twin brother Marcus called Congressman Jackson's Chief of Staff Rick Bryant to find out information about the bill and Rick Bryant replied "The Congressman is not going to file the bill"! and Marcus asked "Why, We have Congressman Jackson's Word on paper he signed saying "He wanted to file this and have it on his desk when he returned." Rick then said "I'll call the Congressman for him to tell you himself" two minutes later he had Congressman Jackson on the phone and said "I am not going to file it as directed by my staff, but there may be other things we can do".

When Martin Found out he said, "THIS IS AN OUTRAGE ! Our bill is absolutely necessary to remedy this problem"!!!!

"He promised us a bill to be filed in congress that would be the remedy to receive justice in this case against Dr. Goodman and RUSH and Jackson won't keep his word"!!!!

Seeing no other choice from this betrayal, Martin and his twin brother Marcus went to Washington D.C. September 23, 2011 to confront Congressman Jackson at his 1:30pm forum at the Washington Convention Center.

Jackson's Forum was on civil rights & blacks and the constitution. Jackson was speaking about a time line that he wants to leave his son and the black community at large a plan to go from liberty to liberation.

We were successful in seeing the Congressman and to question him straightway during his question and answer session and he was in shock having to admit he did on paper promise to file a bill "but felt it would help too many people" besides Martin that needed justice.

We implored him with his father Rev. Jackson Present, to "SIMPLY FILE THE BILL". Congressman Jackson at this point was very flustered turned to panelist, Barbara Arnwine of the Lawyers Committee on Civil Rights, "Help Me find a way to draft language and file this bill". But Martin and I responded "You have all the power as Martin's congressman and language of the Bill you need right now", "FILE THE BILL MAN"!!!

Since Martin has all the proof in writing against this wayward and wicked man, Dr. Larry Goodman, Martin will not stop till he receives justice,

Martin reminds others, "This can happen to you".

"So whosoever will help me... come join this cause now."

Thank You
